(Pure Food's Act - 1917/6/65)

---

VUNG TAU, FRIDAY 5th AUGUST 1965

EDITORIAL

For some time, it has been felt that a Unit New's Rag has been warranted, to circulate news cuttings from home, wry grins and local news. We, the editorial staff, who are unpaid and all anxious to promote good will and fully realizing PP207 is far gone, have ventured into the rag trade and will produce the "Wallaby Whisper" each Pay Friday. Our aim is to corrupt, demoralize, undermine discipline and authority, to outsell those rival papers; AFO, POR, URO's and (stand to attention) - "RAAF NEWS". We shall produce a quality paper which does not accept libel suits, slander actions and will not recognise bankruptcy courts or any other such jazz.  
- "We speak Strine". ED.

WHISPERSCOPE

CANBERRA 30 July: Monthly promotions for airmen will most likely start in November .... ACT WHISPER\*. # SCULL'S SPOT.

PACIFIC STARS & STRIPES -  
JULY 1965.

TO KILL A WALLABY - WAIT UNTIL  
THE TAIL STRAIGHTENS OUT - THEN  
HIT THEM BEHIND THE EAR WITH A STICK.

1965

BUT ALL HE SAID WAS "WAIT UNTIL THE TAIL STRAIGHTENS OUT - THEN HIT IT BEHIND THE EAR!!"

### A LITTLE BIRD TOLD ME:

Doctor B-C to star in Australia's answer to the Ben Casey - Dr Kidder Show. Temporary title - "Have Trots - Will Travel".

Rip Van Winkle, our fearless Safety Equip man, has two foam rubber cushions on demand from Australia - claims he is going to make buffer boards for the 'Boos. Our guess - a new mattress for under the table?

Noted on the Allowance Expenditure Forms for the Allowance Mob, an Aircrew entry of course - "Breakfast - 1 Coke, Lunch - 6 Beers, Tea - 12 Beers". Must be on a liquid diet.

The conspicuous absence of our Fire Marshall at the big cement bag blaze at the Movies the other night. When questioned by our man on the spot said "No Marshall badge, no puttem out fire". Ugh?

Doctor B-C tells me that the recent rash of mustache removals was caused by infestation of the bacteriorological genus "Horrendusinfestusattackusupperlipus", which he says is contracted by the feathers in Swan Beer aggravating the tender hair under the probiscus, which enraged at this unwarranted invasion of its territory, bristles furiously and then unused to such energy expenditure, dies and falls out. This must prove something, but for the life of me I don't know what?

A certain party (Wry Grin) claims to have invented an unspillable beer glass. Trial run on 31st July shows he may have a winner.

Our fearless leader (Wry Grin Harvey) has invented a new method which takes all the hard work out of unloading fuel drums - "First take 3 IAC's etc."

A man of many talents - "Bream" our fearless fitter reckons he is going to remuster to a panel beater/puncture fixer/cargo roller belter-outer. Glad to see a man happy in his work?

More on the Allowance Expenditure Front. Guess who the local store-keepers are referring to as "Diamond Jack", the last of the big spenders?

### NEWSFLASH:

It has come to the Staff's notice that at long last the Aussie PMG has realised we are here, giving our overall utmost for our country (sob! sob!) and have decided to give us some Postal Facilities. More on this later.

### LOST AND FOUND

Anybody digging in the Villa garden who happens to find a bottle of Rum (Bacardi naturally), please return same (full) to our Editor (Nev).

### APPRECIATIONS

Our thanks go to Nev Watterson(Editor), John Cameron (Assist. Ed.) Lee Scully (Artist and Columnist), Blue Bushell (Staff Writer), Ter Bousfield (Gossip Columnist) and Bo...
